

HVAC Unit Heaters UHA-Series Features & Benefits

- Reliable ignition with direct spark ignition burners
- Minimize summer heat build-up with remote fan option
- Longer life and less maintenance with optional stainless steel heat exchanger
- Reduce dirt build-up on burners and extend life of heat exchanger with separated combustion units
- Installation and operation flexibility with rear or top air and flue connections (Models UHA 30 - 125 only)
- Ideal for smaller spaces with low profile design (Models UHA 30 - 125 only)
