

Industrial Finishing Oven Panels & Trim Packages Overview

RAPID™ 3", 4", 5", and 6" - Insulated Oven Panels

RAPID™ Insulated Oven Panels come in standard sizes but can be customized for specific applications. They are available in standard thicknesses of 3", 4", 5", and 6". The oven panels consist of two aluminized steel panels with insulation placed in the middle. Various trim pieces, panel joint insulation, and conveyor channel support clips are also available to help you get the job done. 2" insulated panels and trim packages are also available.

Panels are banded and skidded for ease of shipping and handling via flatbed trucks. Standard delivery on Insulated Oven Panels is 3 weeks for most orders.
